LAF/ Ordner sesuai untuk menyimpan berkas terjilid secara efisien, misalnya:

- Berkas yang sering digunakan seperti daftar harga, surat penawaran, lembar penilaian, dan lainnya.
- Berkas-berkas untuk konsultan pajak, pengacara, kantor pemerintah dan kantor- kantor lainnya.
- Rekening koran, air dan listrik.
- Nota-nota, surat jalan, invoice dan kwitansi.

Suspension File sesuai untuk menyimpan berkas terurai secara efisien, misalnya:

- Berkas yang dikelola di dalam satu department administrasi, terutama bagian pembelian, penjualan dan sekretariat.
- Berkas dalam pola proses dan penanganannya harus segera.
- Maksimal 60 lembar dalam sebuah map gantung
- Setelah 30 - 60 lembar diletakkan dalam folder, dapat dipindahkan ke map gantung.

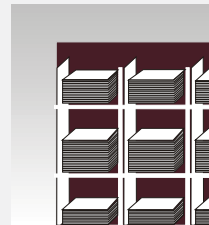

are distributed by Bino & also available here:

Active & In active File

Kriteria dari pola penyimpanan berkas:

1. Keputusan dalam menentukan penyimpanan secara terjilid atau lembaran lepas
2. Tipe dan jenis berkas (berkas aktif / in aktif)
3. Lamanya penyimpanan berkas
4. Informasi tentang ruang dan rak yang akan dibutuhkan

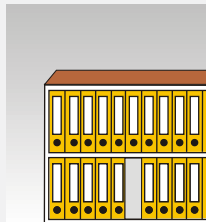

Untuk dokumen posisi tidur gunakan Letter Tray

On Progress Files

File yang sangat aktif dan sering digunakan:

- Folder: holds up to 30 sheets
- Suspension Fil: holds 30-60 sheets or several folders can be put inside
- Letter tray: holds hundreds of sheets, or many folders can be put inside

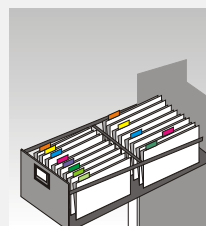

Untuk dokumen posisi berdiri gunakan Lever Arch File

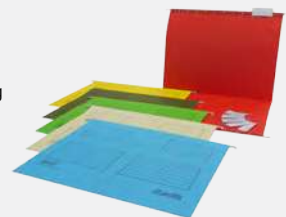

Active Files

File cukup aktif, penggunaannya secara regular:

- Lever Arch File : kapasitas 5 and 7 cm
- Computer File : kapasitas 3 cm
- Post Binder : kapasitas 6, 8 and 10 cm

Untuk dokumen posisi gantung gunakan Suspension File

In Active Files (bound files)

- File diperlukan hanya dalam waktu- waktu tertentu, umumnya untuk seminar dan data
- Ring Binder: capacities 2 to 6,5 cm
- Insert Ring Binder: capacities 2 to 6,5 cm

Colour Codes

Each product is specified by a 4-digit ref. No. And the colour is specified by 2 additional digits. Example: Lever Arch File no. 1450 in red = 1450-09

Setiap produk kami memiliki 4-digit nomor (item produk). Identifikasi warna ditunjukkan dengan tambahan 2 angka dibelakang setiap produk. Contoh: Ordner (LAF) nomor 1450 merah = 1450-09.

Mechanism Information

Please see below how the height and the capacity are measured for each of the most frequently used mechanisms.

Di bawah ini ditunjukkan ukuran dan kapasitas mekanik yang paling sering dipergunakan.

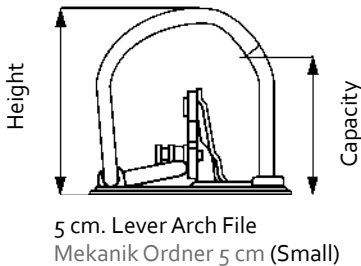

7 cm Lever Arch File

Lever Arch ring mechanism associated with the lever Arch files come in 2 capacities, approximately holding 37mm and 57mm of paper & dividers. They come complete with a compressor, and have a lever operation for ease of opening and closing.

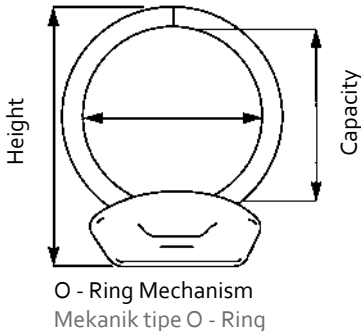

5 cm Lever Arch File

Lever Arch ring mechanism associated with the lever Arch files come in 2 capacities, approximately holding 37mm and 57mm of paper & dividers. They come complete with a compressor, and have a lever operation for ease of opening and closing.

O-Ring Mechanism

The round ring or 'O' ring as it is more commonly known, is ideal for the smaller product style filo-fax files & easle binders, where it is easy to turn over pages. the 'O' ring and the 'Q' Ring, commonly available in 2/3/4/6 rings and have 4 main base lengths to accommodate A3/A4/A5 plus American Quarto & filofax sizes.

D-Ring Mechanism

The D-Ring Mechanism is also called the Combi Mechanism because one side of the mechanism is round and the other side is square. This shape enables paper to lie flat for easy access.

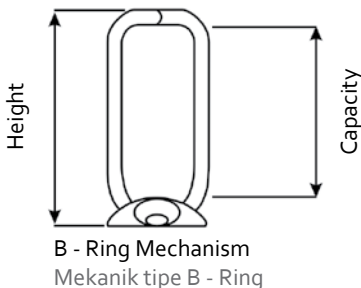

Mekanik D-Ring disebut juga mekanik Combi, yaitu kombinasi antara bentuk lingkaran dan persegi dan menyusun kertas secara rata.

B-Ring Mechanism

The B-Ring Mechanism is also called the Square Mechanism (Q-Ring). It is mostly used for the Data Ring Mechanism. The shape enables paper to lie flat.

B-Ring juga disebut Q-Ring (Square) atau kotak, bentuk Begel. Umum dipakai pada data mekanik. Bentuk yang siku memungkinkan penyusunan kertas secara rata.

Hole Distance Information

Please see below the most frequently used punched hole distances on paper. Bantex pockets, dividers and indexes are produced with the universal 11 punched holes fitting perfectly on the most frequently used mechanisms.

Jarak lubang yang umum dipakai, pocket, divider dan index Bantex menggunakan 11 lubang perforasi dan bisa dipakai hampir untuk segala jenis mekanik.

Hole Distance Information			
Amount of holes on the paper	Hole Distance (mm)	Paper Size	Usage Area
2	80	A4, A5	Western Europe
4	80-80-80	A4	
4	45-65-45	A5	
4	21-70-21	A4	Sweden
3	70-70	Junior Size	North & Central America
3	108-108	Letter Size	

Maxi Size

Maxi size dividers and indexes are a bit bigger than the normal A4 size. It is used together with pockets but it does not cover the index tabs.

Ukuran maxi pada divider dan index sedikit lebih besar dari A4 untuk dipakai bersama-sama dengan pocket, namun tidak menutupi tabs / index.

Polyvinylchloride (PVC)

It is a strong, flexible and durable material. Suitable for making any product.

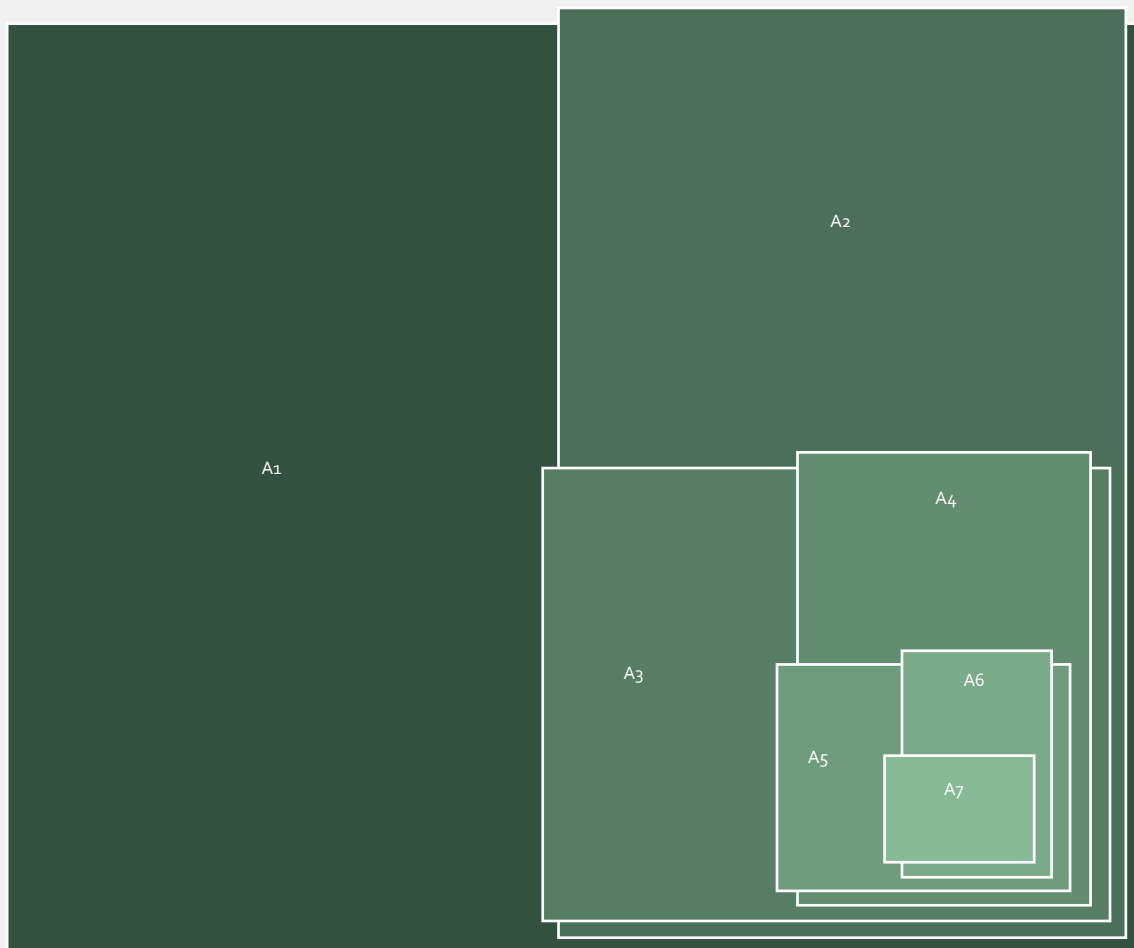

Bahan yang fleksibel, tahan lama dan kuat. Cocok untuk segala jenis produk.

Polypropylene (PP)

It is made of environmentally friendly plastic material, very suitable for pockets, folders, indexes, etc as it does not react with any colour on photocopies and photos.

PP merupakan plastik yang ramah lingkungan. Sangat cocok untuk pocket, folder, index dan lain-lain. Tidak reaktif terhadap warna pada fotocopy atau foto. PP mengandung unsur C (karbon) dan H (hidrogen). Ketika PP dibakar hanya akan menghasilkan karbondioksida dan air. Untuk memproduksi PP tidak diperlukan bahan beracun seperti timbal. PP dibuat dari propylene monomer. Propylene monomer ini adalah limbah dari industri minyak bumi yang biasanya dimusnahkan dengan cara dibakar ke atmosfer dan akan berkontribusi pada emisi gas rumah kaca. Maka dengan banyak menggunakan produk yang terbuat dari PP, secara langsung akan mengurangi emisi gas rumah kaca, karena mengambil propylene monomer (yang tadinya hanya akan dibakar dan menjadi emisi) menjadi bahan baku untuk membuat PP dan akhirnya menjadi produk lain. Material PP 100% dapat didaur ulang.

Let's Be Kind to Our Earth

Being environmentally friendly simply means having a lifestyle that are better for the environment. Its all about taking small steps towards mother earth so as to make this planet a better place for our communities and generations to come. A good way would be to start with conserving water, driving less and walking more, consuming less energy, buying recycled products, eating locally grown vegetables, joining environmental groups to combat air pollution, creating less waste, planting more trees and many more.

Here are some ways you can begin to become more environmentally friendly.

1. **Become More Aware of Resources:** Start by living with a greater awareness of the resources that you use in your daily life. Pay attention to how you choose to heat, to travel, to use water and use products that were made by manufacturing practices. Awareness is what will allow you to then begin to make environmentally friendly choices.
2. **Practice Conservation:** With your new awareness of how natural resources are used in your life start to practice conservation. This can be as simple as turning off the lights as you leave a room and as complex as making different choices when it comes to building your home.
3. **Plant Trees:** Trees are necessary for us to survive. They give oxygen, fruits, clean the air, provide shelter to wildlife, prevent soil erosion. A shady landscape around your home can help you to reduce consumption of energy and keep your home cool even during summers. Plant small trees around your home, don't cut them unless it's necessary, work with local environmental groups to plant more trees and educate others about the positive aspects of it.
4. **Conserve Water:** Water needs to be conserved as lot of energy is required to pump water from rivers or lakes into your home. Conserving water reduces the amount of energy that is needed to filter it. Few ways to conserve water are – take short showers, fix leaking pipes, keep the running tap close while you brush your teeth, recycle water in your home, use water saving appliances, collect rainwater in a rain barrel to water your lawn.
5. **Change Your Travel Habits:** Driving and flying are two areas where you can make a real impact with environmentally friendly practices. Choose fuel efficient travel options, travel less and try to pick more direct routes to save on fuel. If your office is near your home, try to ride a bicycle instead of a car.
6. **Use Less Fossil Fuel Based Products:** Find out what products and consumables you use that are made using fossil fuel based products and processes and use them less or replace them in your life.

7. **Buy Locally Grown Products:** An easy way to reduce your carbon footprint is to buy locally grown products. When you shop locally instead of buying products that were shipped from far away, you are actually supporting local dairies and farms. Apart from this, you can follow organic farming practices and can grow food on your own backyard and can sell surplus to your friends.

8. **Reduce Use of Harmful Chemicals:** Hazardous chemicals like paint, oil, ammonia and other chemical solutions when disposed openly, can cause pollution in the air and water as these chemicals can seep into the groundwater. The polluted air and water can have serious consequences on human health. They should be disposed off to a toxic waste site for safe disposal.

9. **Composting:** Composting is an easy process that takes remains of plants and kitchen waste and converts it into rich nutrient food for your plants that helps them grow. It reduces the amount of garbage that goes to the landfills which pollutes the air. This way it proves safe for the environment.

10. **3 R's of Waste Hierarchy:** The 3 R's (Reduce, Reuse, Recycle) waste hierarchy is the order of priority of actions to be taken to reduce the amount of waste generated and to improve overall waste management processes and programs. Reduce simply means reducing what is produced and what is consumed. Reuse items for a different purpose instead of sending them to landfills. To recycle something means that it will be transformed again into a raw material that can be shaped into a new item. For example: Polypropylene (PP) is one of them.

11. **Buy Recycled Products:** When you go out for shopping, try to buy and choose products from market that are made up of recycled materials with minimal packaging i.e. the product should be environment friendly. Look into manufacturing processes to check if it was made from recycled materials or the use of plastics or chemicals was involved in its production.

12. **Stop Littering:** One of the common sight that we see everyday on streets is seeing people littering on roads. One of the ways to keep the environment and surrounding clean around you is to stop people from littering on roads. Instead, educate them to put trash and garbage in dustbins. The pile of garbage on road hampers the beauty of city and also pollutes the air.

13. **Protect Wildlife:** Human activity is leading to extinction of endangered species and habitats. Protect places like beaches and forests that are habitats for animals. Join hands with local forest department to protect animal habitat.

14. **Educate Others:** Educate others about the importance of living an environmentally friendly life. The more people share an awareness of the importance of the environment, the more we can do together to conserve it.

~ Each one of us can make a difference in the way we live our life dan take a role to be a solution to make this earth a better place. Let's start by using products that have the least impact environmentally ~

Bantex Green Initiatives

~ *Prakarsa Untuk Peduli Lingkungan* ~

Green Initiatives

Green Initiatives merupakan tema gerakan peduli lingkungan yang tengah dirintis Bantex dengan cara memulai lini produk dengan menggunakan bahan ramah lingkungan yang mudah didaur ulang.

Polypropylene (PP)

Polypropylene (PP) merupakan salah satu bahan dasar yang mendominasi pembuatan produk-produk ramah lingkungan Bantex. Penggunaan bahan baku PP akan langsung memberi dampak positif signifikan terhadap lingkungan, seperti yang terlihat dari beberapa fakta berikut:

PP mengandung unsur C (karbon) dan H (hidrogen). Ketika PP dibakar hanya akan menghasilkan karbondioksida dan air. Saat memproduksi PP tidak diperlukan bahan beracun seperti timbal. PP dibuat dari propylene monomer. Propylene monomer ini adalah limbah dari industri minyak bumi yang biasanya dimusnahkan dengan cara dibakar ke atmosfer dan akan berkontribusi pada emisi gas rumah kaca. Dengan banyak menggunakan produk yang terbuat dari PP, kita secara langsung akan mengurangi emisi gas rumah kaca, karena mengambil propylene monomer (yang tadinya hanya akan dibakar dan menjadi emisi) menjadi bahan baku untuk membuat PP dan akhirnya menjadi produk lain. Material PP 100% dapat didaur ulang dan dalam prosesnya tidak menimbulkan polusi berbahaya.

Kita dapat menemukan beberapa produk dalam katalog ini yang telah menggunakan material PP sebagai bahan bakunya. Di masa mendatang, sebagian besar produk Bantex akan beralih kepada produk-produk ramah lingkungan ini; tentunya dengan tetap mempertahankan kualitas tinggi yang selama ini menjadi standar produk-produk Bantex.

Bantex Supporting WWF Programs - NEW TREES

Sebagai bentuk kepedulian dan dukungan terhadap penyelamatan hutan Indonesia, mulai tahun 2012 Bantex berpartisipasi dalam program NEW TREES WWF-Indonesia. Program ini merupakan upaya rehabilitasi hutan dengan menggabungkan metode penanaman secara tradisional dan kegiatan monitoring menggunakan teknologi geotag.

Melalui program NEW TREES, diharapkan 7.000 hektar area hutan yang rusak di Sumatera, Kalimantan, Nusa Tenggara dan Papua dapat dihijaukan kembali dalam periode 5 tahun.

- Program NEW TREES akan memperbaiki ekosistem hutan, yang merupakan habitat satwa dilindungi dan daerah resapan / tangkapan air.
- Hutan yang ditanami kembali akan mampu menyerap emisi CO₂. Diperkirakan 36,84 ton/ha CO₂ akan diserap oleh pohon-pohon baru ini dalam kurun waktu 10 tahun setelah penanaman.
- Meningkatnya partisipasi masyarakat dalam perlindungan kawasan hutan, pemantauan kebakaran hutan, dan pengelolaan area tanam.
- Program NEW TREES mendatangkan alternative income bagi masyarakat sekitar hutan yang terlibat dalam kegiatan pembibitan, penanaman, perawatan, dan pemantauan pertumbuhan pohon.

Lever Arch File Polypropylene (PP)

Bantex ECO Lever Arch File made from environmentally friendly PP, on the outside with PP lining inside, which does not cause pollution when incinerated. The greyboard is recycled greyboard. The binding itself is bound like a book without any sharp, welded edges. The front is fitted with the Rado system, which ensures that the lever arch file is stable on the shelf. Metal reinforced finger ring and replaceable spine label.

Ordner ECO Bantex terbuat dari lapisan luar bahan PP yang ramah lingkungan dan lining PP di dalam. Greyboard yang digunakan merupakan bahan daur ulang. Dilengkapi sistem Rado, membuat ordner dapat berdiri kokoh dalam lemari. Terdapat lubang untuk memudahkan pengambilan dan label punggung yang dapat diganti sesuai kebutuhan.

Tidak Menggunakan PVC
Reg. 12.PPLES.05.15

Pada tanggal 21 September 2015 Bantex Lever Arch File-PP mendapatkan hak untuk menandatangani Logo Ekolabel Swadepklari Indonesia yang diterbitkan oleh Kementerian Lingkungan Hidup dan Kehutanan (No. Register Produk 12.PPLES.05.15) sebagai apresiasi kepada Bantex yang telah mampu mempertimbangkan aspek lingkungan pada produknya.

Varian Ukuran & Opsi Baseplate

Seri ordner PP Bantex kini hadir dengan beragam varian ukuran untuk memenuhi kebutuhan arsip anda; A4 - 5cm, A4 - 7cm, Folio - 5cm, Folio - 7cm, serta A5 (Kwitansi) - 7cm.

Versi baseplate kini juga tersedia untuk seluruh varian PP. Mekanik baseplate dapat dilepas - pasang serta memiliki pengunci sehingga secara struktur tetap sama kuatnya dengan mekanik yang terpasang permanen pada LAF biasa.

Penggunaan baseplate memberikan efisiensi pada saat packaging & pengiriman item, dimana pada versi biasa satu pack menampung 15 pcs sedangkan baseplate dapat menampung 30 pcs. Khusus tipe 1465 & 1450 tersedia pula opsi baseplate 50pcs per pack.

Pastel Colours

Pastel colours create a world of soft elegance, fun and innocence. Lighter pastels can feel more airy, sometimes more uplifting, and easier on visual senses. These colors are cool and soothing. They have an aura around them which make them cozy to be within and soothing to look at.

Bantex PP Lever Arch File series now expand its color range even wider by including these 5 new pastel color options. They are: Sky Blue (23), Cool Aqua (76), Pistachio (72), Peach (45), and Musky Pink (74).

Material Karton Berkualitas Terbaik

Material yang menjadi bahan dasar Bantex TRENDY adalah karton dengan kualitas terbaik yang kemudian diproses secara cermat dengan cara mutakhir hingga menghasilkan ordner yang tipis dan ringan, namun rigid serta kuat.

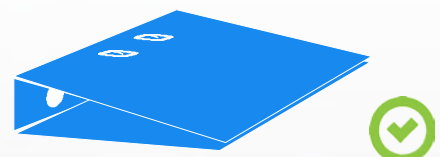

Proses produksi yang canggih dalam pembuatan Bantex TRENDY juga memungkinkan kandungan air/ kelembapan pada karton berada pada level terendah sehingga ordner tidak mudah melengkung seperti pada produk sejenis merek lain yang pada bahan kartonnya masih didapati kandungan air/kelembapan yang tinggi sehingga membuat ordner cepat berubah bentuk.

Colours:    
10 01 04 09

Ordner Karton Merek Lain

Ordner karton merek lain memiliki kandungan air/kelembapan yang cukup tinggi sehingga membuatnya lebih berat dan tebal, namun tidak kuat dan tidak awet, serta mudah mengalami deformasi (perubahan berubah bentuk/ perubahan struktur membuat board melengkung)

Ordner Karton Bantex Trendy

Ordner karton Bantex TRENDY hampir tidak memiliki kandungan air/ kelembapan pada material dasarnya, sehingga membuatnya memiliki bobot lebih ringan namun kuat, rigid, awet dan tidak mudah berubah bentuk.

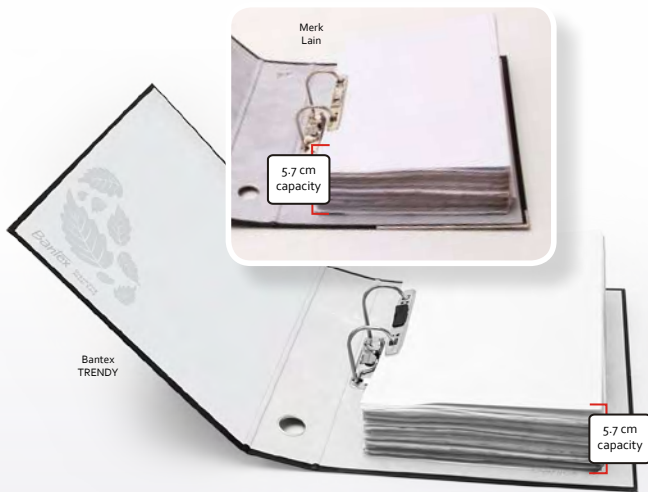

Mekanisme Pengunci Rado

Fitur Rado yang tidak terdapat pada merek lain membuat Bantex TRENDY mampu tetap stabil dan kokoh dalam posisi berdiri bahkan pada saat kapasitasnya terisi penuh. Produk merek lain tanpa Rado akan berubah bentuk serta tidak mampu berdiri kokoh saat terisi penuh. Selain itu fitur Rado akan mempertahankan bentuk ordner anda terkunci dalam postur yang benar sehingga Bantex TRENDY anda akan lebih awet dibanding produk sejenis merek lain.

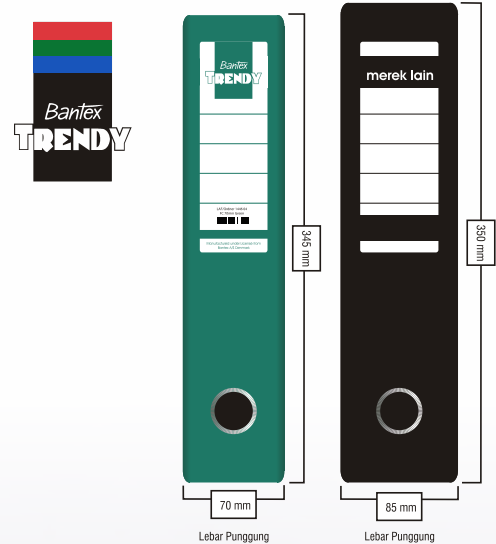

Pocket Label

Bantex TRENDY memiliki pocket label berkualitas tinggi yang dibuat dengan presisi, sehingga memudahkan anda saat akan mengganti label punggung. Pada produk merek lain, anda akan menemui kesulitan saat mengeluarkan ataupun memasukan label punggung.

Lebar punggung tidak menentukan kapasitas tampung.

Kapasitas Tampung

Dengan dimensi punggung yang lebih kecil, Bantex TRENDY tetap memiliki kapasitas isi yang sama besarnya dengan produk merek lain yang berdimensi punggung lebih lebar. Keunggulan ini membuat Bantex TRENDY mampu mengefisienkan manajemen penggunaan ruang di setiap rak di kantor anda. Anda mendapat keuntungan penggunaan ruang yang lebih efisien dengan memakai Bantex TRENDY, karena secara kapasitas, Bantex Trendy menampung kertas sama banyaknya dengan ordner karton merek lainnya yang berdimensi lebih besar.

Dividers & Indexes

Alat-alat pengarsipan seperti binder atau ordner memiliki fungsi untuk menyimpan & mengelompokkan dokumen dalam jumlah cukup besar. Berkas dokumen yang bersatu dalam sebuah alat arsip seringkali memiliki sub-kelompok sendiri yang perlu dipisahkan menurut pengaturan tertentu (angka, nama, tanggal, bulan, kode, dsb) dengan tujuan grouping, kerapihan, kemudahan dan efisiensi waktu akses.

Divider & Index Bantex merupakan alat bantu pengarsipan berupa lembaran yang disisipkan diantara kelompok dokumen yang ditempatkan dalam sebuah alat arsip. Divider / index Bantex berfungsi sebagai sekat, pembatas, dan penunjuk letak kelompok kelompok dokumen tsb.

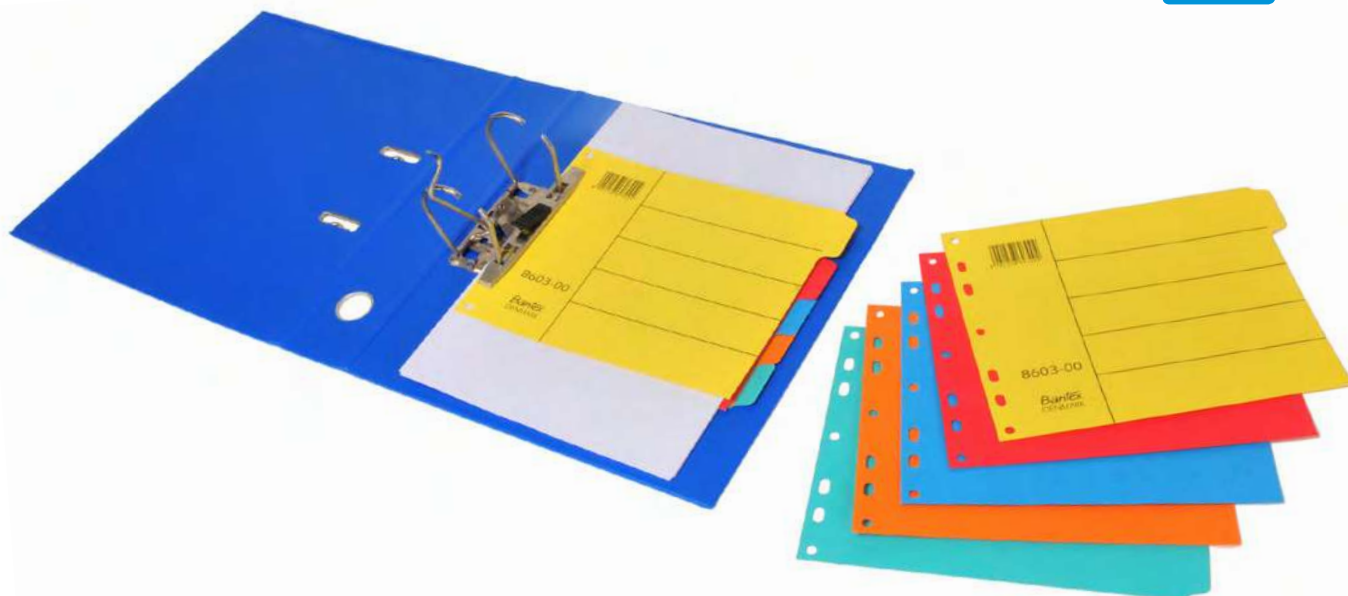

Cardboard Dividers & Indexes

## Introducing New Product Range Items

**B**INO Group have been continuously expanding the product item range for many years to constantly meet the various needs of our growing customers and developing products that create solutions and opportunities to work smarter in the home, office, and school.

We are committed to always deliver the best quality product to provide our customer with the best product experience possible. Complementing **Bantex**, as our primary well-known quality product, we proudly introduce our new range of Oxford notebook products.

The culture of the Oxford brand is a deep-rooted combination of expertise, tradition and uncompromising quality. One of the key elements of the brand's success is its approach: Everyone deserves a product where design, quality and comfort are in focus when the product is in use.

Oxford's ambition is to supply the right tools to support its consumers' achievements. Oxford manages to combine function and design with efficiency. In its desire to shape the future and promote the use of notebooks, Oxford has made its mark on the market over the years by being at the forefront of the latest technology and introducing new features and innovative solutions.

The first OXFORD branded exercise books were sold in the UK in the early 30's. Today millions of OXFORD notebooks are used every year by pupils, students and business professionals. The brand has built a strong legitimacy through undisputable quality products which perfectly fit their users' needs. Today OXFORD is the leading European brand for notebooks and notepads.

## PAPER BY NATURE®

Paper by Nature® is the only eco-label able to certify all production processes for converted paper products. To be awarded this eco-label by Bureau Veritas Certification, companies must comply with a very demanding set of requirements such as the origin of the fibers in the paper, the type of inks used, the handling of emissions into the air and water or the disposal of production byproducts.

Oxford notebooks are the first paper products to be certified Paper by Nature®, the only Pan-European eco-label for converted paper products such as envelopes, notebooks and agendas.

**P**aper is a natural, renewable and recyclable resource. It can be recycled up to 5 times before becoming unusable. As 99% of our products are made from paper for many years OXFORD has been committed to the protection and development of forest resources by applying a responsible purchasing principle to all raw materials. The paper used in OXFORD products is sourced exclusively from wood derived from sustainably managed forests and from legal forestry operations. In 2005 OXFORD notebooks were the first to be awarded the "NF Environnement" certification. NF Environnement is a French ecolabel for notebooks and diaries that preceded the EU Ecolabel for stationery products.

100% of OXFORD books and pads paper are certified FSC or PEFC to ensure our production is actively contributing in maintaining the paper cycle integrity.

In 2016 OXFORD became the first brand in France and in Europe to be awarded the new EU Ecolabel for its converted paper products. The ecolabel certifies the reduced environmental impact of stationery products throughout their life cycle, from raw materials to end-of-life. The commitment includes the use of certified paper, reduced emissions to air and water, a reduced level of paper waste and energy consumption.

# ***LINEX***

In 1923, a Danish civil engineering student, Frede Duelund Nielsen, started manufacturing ship curves. Over the years, he expanded his product line with set squares and rulers; finally, LINEX A/S was formally established in 1935. Exports started in 1936 and grew steadily. After World War II, sales and exports increased dramatically and the company expanded rapidly as Linex became known as one of the leading brands of drawing articles in the world. Today, Linex is still focused on manufacturing and trading a wide range of high-quality drawing articles. When you're using Linex-products you can be sure of precision, irrespective of being an engineer, an architect, a student or any other user.

Two rubber strips ensure that the ruler lies firmly on the paper.

One rubber strip prevents the ruler from sliding.

When tilting the ruler, the rubber is lifted from the paper and the ruler slides smoothly on the acrylic rib.

## Super Ruler

With 2 bevels

Our legendary Super Ruler has achieved international recognition and its resilient design still makes it an international best-seller. It includes a patented and unique slide/antislid principle, which makes it far more functional and efficient than traditional rulers. A built-in rubber strip grips the underlying surface and the ruler locks itself firmly in place. By slightly tilting the ruler, it is easily repositioned. The Super Ruler has found wide use as it is suitable for both drafting, measuring and following lines. Material: crystal-clear acrylic with green centre.

Model "MI" is divided in mm on a 0-30 cm scale on one side and is divided in inches on a 0-12 inch scale on the other side.

## Innovation

Innovation has always been part of Linex culture. From railway and ship curves to Linex Super Ruler to new fancy school products – Linex is always on the lookout for innovative products and solutions.

Linex legendary Super Ruler, which has achieved national and international recognition, includes a patented and unique friction principle, which prevents the ruler from sliding on the underlying surface by simple pressure on the ruler.

Linex Super Ruler

## Environmental Awareness

Linex aim at reducing the impact of production activities on the environment. In the production processes, Linex aim for effective material consumption – both in terms of electricity, plastics and other materials.

Some of Linex packaging is developed to protect or to carry the products they contain, rather than going to waste as it is often the case. Linex also recycle materials wherever possible.

# LINEX Product Strength

## Precision

The Linex brand has always been synonymous with ultimate precision. Linex strive to comply with ISO's standards for drawing articles, which apply to straightness, parallelism and precision.

Products are continuously tested against these standards to ensure that Linex's customers get maximum reliability when they purchase a Linex product. This is why Linex choose to print the measurement products on the underside to avoid parallax errors.

## Quality Materials

Linex handles a variety of hard and soft plastic materials. Materials are carefully chosen to create products that offer the best solutions and features while taking into consideration end-users' needs.

Products are therefore typically offered in high-quality acrylic (PMMA) for the professional market and in Styrene Acrylonitrile (SAN) for the office and school markets. Both are supreme materials that have high durability and give basis for creating beautiful products.

## Wide Product Range

Linex offers one of the most extensive ranges of quality drawing articles in the world. New products are developed and launched every year, in response to customers' demands and market developments.

Thus, we make it easy for Linex customers to choose the right products and to simplify their ordering and logistical processes by grouping their purchases with one supplier.

## ***Bantex Meraih Penghargaan TOP BRAND Selama 8 Tahun Berturut-turut (2011-2018)***

**M**erek adalah salah satu aset terpenting dari perusahaan. Dari sudut pandang keuangan, merek bisa senilai puluhan kali nilai buku perusahaan. Dari sudut pandang yang lain, merek adalah antarmuka dan persentuhan antara konsumen dan perusahaan, ia merupakan deskripsi dari produk atau layanan yang ditawarkan perusahaan.

Fakta ini membuat manajemen merek sangat diperlukan. Dan dalam mengelola merek, tentu kita tidak bisa mengabaikan pengukuran dan benchmarking. Tahun ini, Frontier Consulting Group sekali lagi menerapkan indikator kekuatan merek yang disebut Top Brand Index (TBI). Top Brand Award adalah sebuah penghargaan terhadap merek-merek yang tergolong sebagai merek teratas.

Top Brand Index diukur dengan menggunakan 3 parameter, yaitu top of mind awareness (yaitu didasarkan atas merek yang pertama kali disebut oleh responden ketika kategori produknya disebutkan), last used (yaitu didasarkan atas merek yang terakhir kali digunakan/ dikonsumsi oleh responden dalam 1 re-purchase cycle), dan future intention (yaitu didasarkan atas merek yang ingin digunakan/ dikonsumsi di masa mendatang). Kriteria top didasarkan atas survei yang dilaksanakan oleh Frontier Consulting Group sejak tahun 2000.

PT Batara Indah, sebagai produsen dan pemegang merek Bantex kembali menerima penghargaan Top Brand Award 2018 untuk merek Bantex, di Hotel Mulia, Senayan, Jakarta. Penghargaan tersebut bagi Bantex merupakan penghargaan kedelapan, sejak pertama kali meraih penghargaan di 2011 silam.

Top Brand merupakan penghargaan yang sangat bergengsi dan juga merupakan simbolisasi pengakuan konsumen Indonesia terhadap kualitas produk Bantex yang selalu unggul. Penghargaan ini juga merupakan salah satu penghargaan yang dapat membantu para konsumen dan penikmat merek untuk mengindikasikan dan mempertimbangkan suatu produk.

Bantex meraih TOP BRAND AWARDS 2011, 2012, 2013, 2014, 2015, 2016, 2017 dan 2018 untuk kategori 'Filing Product'.

Organizing Made Easy

# Mengarsipkan Dokumen Dengan Efektif

**K**ondisi tempat kerja yang rapi dan teratur bisa membuat anda lebih bersemangat, dan tentunya meningkatkan produktivitas kerja. Salah satu cara memulainya adalah dengan meluangkan waktu beberapa menit untuk mengatur meja kerja anda. Sortir barang-barang yang perlu diletakan di atas meja kerja. Saat menata, pertimbangkan dengan seksama barang-barang apa saja yang sering digunakan, lalu letakan di posisi yang mudah dijangkau. Jangan lupa buku, catatan, dan barang-barang lain yang dibutuhkan.

Penyimpanan dokumen di kantor harus dilakukan dengan sistematis sehingga apapun yang dicari dapat ditemukan dengan cepat. Meskipun jumlah dokumen Anda terhitung banyak, bila diatur dengan baik, anda tidak akan mengalami kesulitan menemukan

dokumen yang dibutuhkan. Dengan pengarsipan yang baik, anda menciptakan sebuah sistem akses dokumen yang cepat dan efisien.

Penyimpanan dan pengarsipan dokumen bisa disesuaikan dengan tata letak kantor anda. Misalnya, untuk memilah dokumen yang berada di meja, anda dapat menggunakan letter tray dan folder. Untuk dokumen yang berada di lemari khusus, anda dapat menggunakan ordner atau magazine file. Untuk dokumen terurai anda di filing cabinet, anda dapat menggunakan suspension file. Produk-produk media filing Bantex tersedia dalam beragam warna yang akan semakin memudahkan anda mencari, memisahkan dan mengkategorikan dokumen.

## Bantex Mendukung Pelestarian Alam Indonesia

**S**ebagai bentuk kepedulian dan dukungan terhadap upaya pelestarian alam, Bantex Indonesia bekerjasama dengan WWF - Indonesia dalam program NEW TREES. NEW TREES merupakan program rehabilitasi dan penyelamatan hutan Indonesia dengan menggabungkan metode penanaman secara tradisional dan kegiatan monitoring menggunakan teknologi geotag.

Penanaman pohon perdana telah dilakukan secara simbolis oleh Managing Director Bantex Indonesia, Bapak Kristanto Widjaja (berkaos hijau) pada hari Kamis, tanggal 31 Mei 2012, di Taman Nasional Ujung Kulon Pandeglang, Banten, Jawa Barat. Acara seremonial yang diadakan oleh Bantex Indonesia dan WWF Indonesia ini juga dihadiri oleh Pemkab Pandeglang dan Kepala Balai Taman Nasional Ujung Kulon.

Melalui program NEW TREES, diharapkan 7.000 hektar area hutan yang rusak di Sumatera, Kalimantan, Nusa Tenggara dan Papua dapat dihijaukan kembali dalam periode 5 tahun.

## About Us

Bino has been established since 1986 as a manufacturing and trading company for office stationery products. Bino is licensed to manufacture high quality office supplies under the Bantex brand. Bantex is a very well-known brand for office stationery in Europe. They have their own factory and have given their licenses to distribute and to manufacture their products under the Bantex brand to worldwide distributors in more than 70 countries spreading over the six continents, including Bino in Indonesia.

We have made continuous improvements in our product quality and distribution system which enable us to give better service to our customers. We specialize in the manufacture and distribution of the high quality office stationery products. The bino management's policies will go along in conformity with our motto: quality and service are our commitment.

Bino deals in international brand stationery products and each product is the leader in its market. We distribute Bantex, Elba, Linex, APLI, Lyra, Xyron and some other superior brands of the office stationery products. We have made expansions and investments in an effort to deliver the highest level of service to our customers. Our head office and distribution center, that have an area of 25,000 square meters, are located in the Sentul Industrial Estate. The operations of this distribution center will increase our service capability to guarantee the customer satisfaction.
